Sobotta - Atlas of Human Anatomy with online access to : the exam atlas for understanding, learning, and training anatomy The English-language Sobotta Atlas with Latin nomenclature is specifically adapted to the needs of preclinical medical students. Right from the start, the book and the Internet content concentrate on exam-relevant knowledge. The new study concept simplifies learning-understanding-training: Descriptive legends help the student identify the most important features in the figures. Clinical examples present anatomical details in a wider context. All illustrations have been optimized, and the lettering reduced to a minimum. An additional booklet containing 100 tables on muscles and nerves supports systematic study. Volume 3 "Head, Neck and Neuroanatomy ? includes the following topics: HeadEyeEarNeckBrain and Spinal CordAccess to the Sobotta website complements your personal exam preparation with additional contents - ideal for printing and taking along: Image database: All Sobotta figures including the figures of the previous edition in high resolution.Exam coach: For selected, exam-relevant figures nomenclatures can be matched by drag & drop and evaluated immediately.Diss2go: Figures relevant for dissection can be printed and taken along to the dissection course. Additional tips help to avoid mistakes during dissection. 700 new figures in total as well as revised figures and tables are the basis for understanding anatomical structures. Short explanatory captions and bold printed nomenclature make the illustrated structures easy to understand. Well-chosen clinical examples exemplify the reference of anatomy to clinical practice. Introductory pages for each chapter provide a quick overview. The Exam Check List summarises the main topics for the preliminary medical examination.
